Objective

Motivated Computer Science undergraduate (2026–2027 batch) with a strong interest in **Data Science, Machine Learning, and Analytics**. Seeking a **Data Science Intern** role at **GE Aerospace** to apply Python, statistics, and analytical skills to solve real-world engineering and business problems in a high-impact, industry-driven environment.

Education

Bachelor of Technology – Computer Science & Engineering

SRKR Engineering College, Bhimavaram (2023–2027)

CGPA: 7.0 / 10

Technical Skills

Programming & Data

Python, Java, C, SQL, JavaScript

Data Science & Analytics

Data Analysis, Data Cleaning, Exploratory Data Analysis (EDA), Basic Machine Learning Concepts, Statistics Fundamentals

Web & Tools

HTML, CSS, Bootstrap, Git, VS Code

Projects

Weather Data Analytics Dashboard

- Built a real-time weather analytics dashboard using **JavaScript and OpenWeatherMap API**.

- Processed live data to display trends, forecasts, and key weather metrics.
- Improved data visualization and analytical interpretation skills.

StudyHub – Student Resource Portal

- Developed a centralized academic resource platform using **HTML, JavaScript, and MongoDB**.
- Designed structured data storage and retrieval for study materials used by **100+ students**.
- Strengthened understanding of data organization and backend logic.

Anime Streaming Web Application

- Created a responsive web application using **HTML, CSS, and JavaScript** with third-party APIs.
 - Focused on performance optimization, user behavior, and content organization.
-

Certifications

- **Cisco Networking Essentials** – Cisco Networking Academy
 - **Cisco Cybersecurity Essentials** – Cisco Networking Academy
-

Technical Events & Activities

- Participated in technical fests including **AC Event, Skill Up, ML Explore, and Newbies**.
 - Attended workshops and coding sessions focused on **Machine Learning and Full Stack Development**.
 - Active member of college developer circles; regularly engage in peer-led problem-solving and debugging sessions.
-

Soft Skills

Analytical Thinking, Problem Solving, Teamwork, Communication, Time Management, Adaptability

Additional Information

- Strong interest in **Data Science, Machine Learning, and Analytics** applications in engineering domains.
- Eager to learn industry-grade tools and technologies used in aerospace and advanced engineering sectors.
